A Young Man is Nearly Suffocated in His Bed by Gas.

AROUSED BY A CRYING CHILD.

Mr. Ford Was Awakened Late at Night and Found the House Filled With Gas-Powers Discovered Lying Upon the Floor.

As a result of his carciessness, a young man named Powers came very near losing his life early yesterday morning, besides seriously endangering that of several other persons at the residence of Mr. Ferd. No. 504 south Pine street.

Mrs Ford had several friends visiting her to attend the carnival celebrations and one of them, her nephew, Powers, a young man about seventeen years old, was ledged in the room with several small children. The gas was left burning in the room for the young man after the children had retired. When Fowers came in he turned out the light, or supposed he did, and retired. CHILD AWOKE HER

When he returned with Mrs. Ford, he found young Powers lying on the floor and the little boy half out of the bed. The gas was so strong that he at once opened the windows. He then endeavored to raise Powers, who was still conscious, from the floor, but as he got him to his feet, the boy fell to the floor again. It was with difficulty that he was paced in bed, but us the fresh air was pouring into the room from the windows and door, he soon revived after below placed there. revived after being placed there. "When I left off coffee, it seemed that was the thing hardest to drop. I had been put on a diet for stomach trouble, had a good appetite but no food would stay on my stomach. I was compelled to leave off one thing after another, but never suspected coffee. When I decided to leave off the coffee, however, my stomach trouble ceased entirely, also my nervousness, and I can again sleep well. But a new trouble then arose. How was I to get along without my coffee? It was great temptation when I saw it on th able in the morning. One day a friend who knew of my case sent me a package if Postum Cereal Food Coffee. After it had been prepared, I had great misglyings about using it, for it looked so much like fine coffee that I feared it would have the same effect, but I soon found it to be free from all injurious prop-erties and its use has been of great bene-

JUSTICE JOHN AND THE PARADE

He Holds His Own Against Outside Attractions.

TAKES GOOD CARE OF CROOKS.

An Old-Issue Negro Goes for One of the Younger Generation-The Randolphs Out Talk Their Ancient Neighbor-A Drunken Wife,

Mindful of the launching of the Shubrick, by the "how came you so" ginners before him yesterday, Justice John changed the epigramatic sentence with which he opens court from "let her go" to "let her slide." And although the Great Dispenser played against a tremendous counter attraction, he held his own with ease and the audience stayed until the curtain was rung down and the orchestra done playing.

The rumble of floats, shouts of many voices, and the occasional beat of a drum failed to stampede the splendid audience who had read of the Great Dispenser and his court and now came to sit at his feet and drink in his words of wit

Hen Hausman, an old citizen, a devotee of Hacchus for many years, came up on the charge, with its degradation, that finally comes to every habitual drunkard-stealing. He was charged with stealing a coat and two pies. WITHOUT A CAUSE.

A few persons were at work on her yesterday, but they had evidently given up the track of raising her as a bad job. She still ties with her nose pointing down stream and has a heavy list to starboard. Her hold is filled with water and her dock is submerged. Justice John took in the situation and remarked "Old man, you've got three against one. But I must have something for my trouble; all hands pay costs." Then the simple-minded Parsons near-ly talked himself into the pen in dis-satisfaction at the verdict. He will never know what a narrow escape he made from old man Randolph's Herculean blow
